

VOLUNTEERS

Thank you for your interest in becoming a Volunteer for a CADS Ontario program. Volunteers are vital in running a successful program. Programs are only able to take as many students as can be matched with a volunteer (or two) and we therefore encourage you to sign up as early as possible to help lessen student waitlists.

PREREQUISITES

No prior experience necessary. You supply the enthusiasm and love of skiing and we'll give you the training you need. All on hill volunteers should be strong intermediate skiers, comfortable on Blue and Green runs.

RESPONSIBILITIES

Volunteers are matched with students based on their experience, ability, disability and in some cases size and strength. During programs days, volunteers will usually work two 2-hour sessions depending on the number of skiers. Most programs run either a Saturday or a Sunday program. The duration of the program generally runs 8 weeks beginning the first or second weekend in January.

TRAINING & SUPPORT

All volunteers participate in training, starting with an orientation session and Lift Evacuation drill in December. Volunteers will also be supported regularly throughout the season by Certified Instructors and Program Directors.

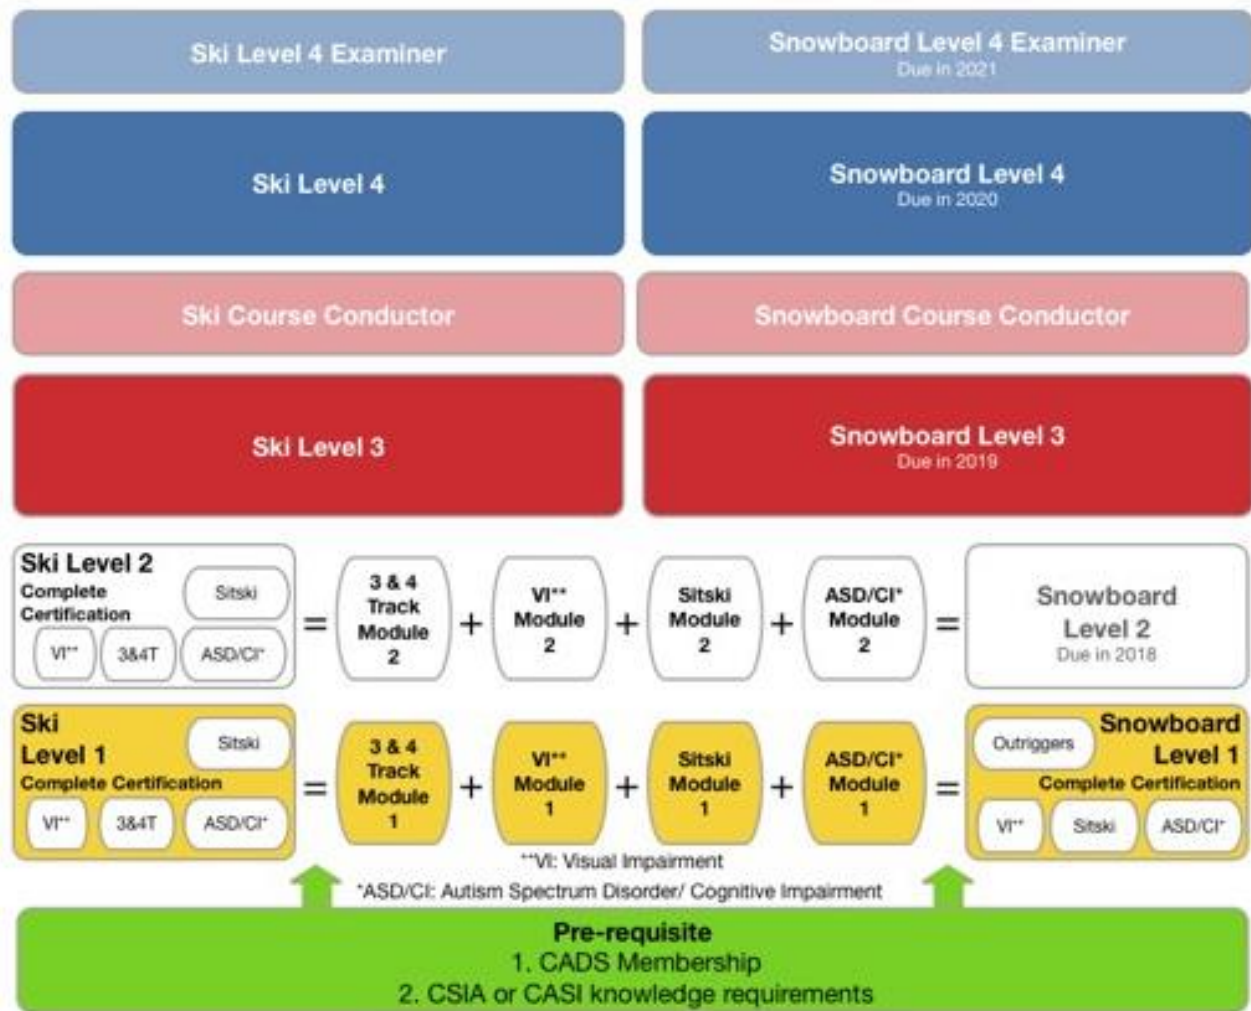

MEMBERSHIP

Volunteers are required to become a member of the CADS organization to participate – a \$40 fee provides you with membership and insurance. CADS memberships can be purchased online through the CADS National website at <http://cads.ski>

CERTIFICATION

For those volunteers looking to become more involved and seek out additional training and certification, a comprehensive national certification pathway is available.

CONTACT

Please contact your local CADS Program Director directly for more details by locating your preferred hill/resort at cadsontario.ca.
